

Pt. 63, Subpt. GGG, Table 2

40 CFR Ch. I (7–1–11 Edition)

| General provisions reference | Summary of requirements   | Applies to sub-part GGG | Comments  |
|------------------------------|---|-------------------------|---|
| 63.10(d)(1)–(2) .....        | General reporting requirements .....                            | Yes.                    | Subpart GGG does not include any opacity or visible emission standards. |
| 63.10(d)(3) .....            | Reporting results of opacity or visible emissions observations. | No .....                |   |
| 63.10(d)(4) .....            | Progress report requirements .....                              | Yes.                    | Subpart GGG specifies reporting requirements.                           |
| 63.10(d)(5) .....            | Startup, shutdown, and malfunction report requirements.         | No .....                |   |
| 63.10(e) .....               | Additional CMS reporting requirements ..                        | Yes.                    |   |
| 63.10(f) .....               | Waiver of recordkeeping or reporting requirements.              | Yes.                    |   |
| 63.11 .....                  | Control device and equipment leak work practice requirements.   | Yes.                    |   |
| 63.13 .....                  | Addresses of State air pollution control agencies.              | Yes.                    |   |
| 63.14 .....                  | Incorporations by reference .....                               | Yes.                    |   |
| 63.15 .....                  | Availability of information and confidentiality.                | Yes.                    |   |

[63 FR 50326, Sept. 21, 1998, as amended at 65 FR 52614, Aug. 29, 2000; 66 FR 40136, Aug. 2, 2001; 73 FR 78213, Dec. 22, 2008; 76 FR 22601, Apr. 21, 2011]

TABLE 2 TO SUBPART GGG OF PART 63—PARTIALLY SOLUBLE HAP

|  |   |
|--|---|
| 1,1,1–Trichloroethane (methyl chloroform) .....  | Chloroform                                |
| 1,1,2,2–Tetrachloroethane .....                  | Chloromethane                             |
| 1,1,2–Trichloroethane .....                      | Chloroprene                               |
| 1,1–Dichloroethylene (vinylidene chloride) ..... | Cumene                                    |
| 1,2–Dibromoethane .....                          | Dichloroethyl ether                       |
| 1,2–Dichloroethane (ethylene dichloride) .....   | Dinitrophenol                             |
| 1,2–Dichloropropane .....                        | Epichlorohydrin                           |
| 1,3–Dichloropropene .....                        | Ethyl acrylate                            |
| 2,4,5–Trichlorophenol .....                      | Ethylbenzene                              |
| 2–Butanone (mek) .....                           | Ethylene oxide                            |
| 1,4–Dichlorobenzene .....                        | Hexachlorobenzene                         |
| 2–Nitropropane .....                             | Hexachlorobutadiene                       |
| 4–Methyl–2–pentanone (MIBK) .....                | Hexachloroethane                          |
| Acetaldehyde .....                               | Methyl methacrylate                       |
| Acrolein .....                                   | Methyl–t–butyl ether                      |
| Acrylonitrile .....                              | Methylene chloride                        |
| Allyl chloride .....                             | N,N–dimethylaniline                       |
| Benzene .....                                    | Propionaldehyde                           |
| Benzyl chloride .....                            | Propylene oxide                           |
| Biphenyl .....                                   | Styrene                                   |
| Bromoform (tribromomethane) .....                | Tetrachloroethene (perchloroethylene)     |
| Bromomethane .....                               | Tetrachloromethane (carbon tetrachloride) |
| Butadiene .....                                  | Toluene                                   |
| Carbon disulfide .....                           | Trichlorobenzene (1,2,4–)                 |
| Chlorobenzene .....                              | Trichloroethylene                         |
| Chloroethane (ethyl chloride) .....              | Trimethylpentane                          |
| Vinyl acetate .....                              | Xylene (p)                                |
| Vinyl chloride .....                             | N–hexane                                  |
| Xylene (m).                                      |   |
| Xylene (o).                                      |   |

[66 FR 40136, Aug. 2, 2001]

TABLE 3 TO SUBPART GGG OF PART 63—  
SOLUBLE HAP

| Compound               | Compound                                  |
|------------------------|---|
| 1,1–Dimethylhydrazine. | Ethylene glycol dimethyl ether.           |
| 1,4–Dioxane.           | Ethylene glycol monobutyl ether acetate.  |
| Acetonitrile.          | Ethylene glycol monomethyl ether acetate. |
| Acetophenone.          | Isophorone.                               |
| Diethyl sulfate.       | Methanol (methyl alcohol).                |
| Dimethyl sulfate.      | Nitrobenzene.                             |
| Dinitrotoluene.        | Toluidene.                                |
|                        | Triethylamine.                            |
